Summary

Motivated Computer Science student with a strong interest in DevOps, Cloud, and automation. Familiar with Linux, Git, and basic scripting, with hands-on exposure to academic and personal projects in Python and productivity tools. Quick learner with a growth mindset, eager to apply problem-solving skills, gain practical experience in cloud infrastructure, CI/CD, and automation, and contribute effectively as part of a collaborative team.

Education

07/2026 — **Bachelor's of Technology In Computer Science and Engineering.**
Surat, India — *P. P. Savani University*

Skills

Technical Skills

- **Programming & Scripting:** Python, JavaScript, SQL, HTML, CSS
- **Cloud & DevOps(Learning):** AWS, GCP, Git & GitHub, Linux,
- **Machine Learning & Computer Vision:** OpenCV, NumPy, SciPy

Projects

EYES ON WHEELS

- **Description:** A real-time drowsiness detection system using machine learning to track eye-blink patterns and facial expressions. Runs on **Raspberry Pi 4** for portability and efficiency.
- **Technologies used**: Python, OpenCV, Numpy, Scipy
- **Key Features:** Fatigue detection through eye-blink patterns, lightweight and portable system

StockWise (Storage Management Platform)

- **Description:** A platform for managing inventory storage, billing, invoicing, client management, and analytics.
- **Technologies Used:** JavaScript, HTML, CSS, MongoDB, NodeJS, Express
- **Key Features:** Client stock tracking, automated billing, and data visualization.

KoffeeBrew

- **Description:** An Android application designed for coffee enthusiasts to discover cafes, manage their profiles, and connect with other coffee lovers.
- **Technologies Used:**Java, Android SDK, XML (UI Design)
- **Key Features:** Cafe discovery to find nearby cafes, user profiles for managing preferences, and social interaction to connect with coffee enthusiasts.

Certifications

The Bits and Bytes of Computer Networking
Google

Python for Everybody
University of Michigan

AWS Academy Graduate - AWS Academy Cloud Foundations

Professional Experience

2/1/2026 – Present
Surat,Gujarat

Technical Intern
IAMOPS
Month-1 Deployed a secure 3-tier application architecture on AWS with application components in private subnets and an internet-facing load balancer in a public subnet.
Worked extensively with AWS services including EC2, ECS, S3, VPC, Route 53, EFS, and AWS Cost Explorer.
Gained hands on experience in cloud networking, high availability design, and cost monitoring/optimization.
